

Club Member Booking & Access Control Management System (CMBMS) is a comprehensive platform designed for modern clubs, gyms, sports facilities, lounges, societies, and corporate recreation centers. It streamlines member registrations, facility bookings, event reservations, subscription renewals, and automated entry-exit using Access Control (RFID/QR/OTP/Biometric). The system ensures operational efficiency, member convenience, and high-level security, providing administrators with full control over facility usage, member privileges, access rights, and analytics.

BENEFITS

- ✓ Digital Member Registration & Approval
- ✓ Eliminates unauthorized usage of club facilities
- ✓ Blacklist/blocked members immediately restricted
- ✓ Instant access via QR/RFID without waiting
- ✓ Member Registration, Renewal & Blocking
